WORK EXPERIENCE

SOFTWARE DEVELOPER

Krushna53, Maharashtra, India

August 2023 - PRESENT

1. Static React Site with Contentful Integration:
 - Successfully transitioned an existing WordPress site to a modern static React-based platform.
 - Implemented Contentful as a CMS, enhancing content management efficiency and flexibility.
 - Streamlined the website's performance and user experience through responsive design and optimized components.
2. Bug Fixing and Styling for PHP and JavaScript Websites:
 - Resolved critical bugs in websites developed using PHP and JavaScript, ensuring seamless functionality.
 - Applied comprehensive styling enhancements using CSS, enhancing the visual appeal and usability of the websites.

- Demonstrated a keen eye for detail to deliver polished and error-free websites.
3. Consultancy Firm Website Development:
 - Led the end-to-end development of a consultancy firm website from scratch, employing React.js, Email.js, HTML, and CSS.
 - Achieved a visually appealing and user-friendly design, optimizing the site for a seamless client experience.
 - Integrated Email.js for efficient communication, ensuring smooth interaction between the consultancy firm and its clients.
 4. Drupal-Based Website for Motor Service Company:
 - Currently engaged in the development of a Drupal-based website for a prominent motor service company.
 - Collaborating with stakeholders to understand requirements and implement solutions tailored to the company's needs.
 - Utilizing Drupal's robust features to create a scalable and secure website for optimal performance.
 5. Gatsby Website Creation:
 - Contributed to the creation of a website using the Gatsby framework, leveraging its speed and efficiency.
 - Implemented modern web development best practices to deliver a fast, responsive, and SEO-friendly website.
 - Showcased adaptability by seamlessly transitioning between different frameworks to meet project requirements.
